POWERED
green energy in Adriatic sea

A Socio-Environmental approach to off-shore wind parks planning

IPA Adriatic "POWERED" Project contribution to best practices, impacts mitigation and environmental analysis

Friday October 11th 2013

VERONAFIERE

Sala "Puccini", Centrocongressi Arena - Pav. 6/7
Smart Energy Expo

Program

10.00 **Registration and welcome coffee**

10.30 **Authorities welcome speeches**

10.40 **Powered project presentation**

Ercole Cauti

Project manager Powered Project

10.50 **The “Powered” Project: a new step to knowledge toward off-shore wind power scenarios in Adriatic Sea Basin**

Renato Ricci

*Department of Industrial Engineering and Mathematical Sciences
Marche Polytechnic University*

11.10 **Environmental aspects in establishing Wind Energy networks in off-shore conditions. A multi-functional approach**

Antonio Pusceddu

Marche Polytechnic University

11.30 **Planning mitigation in Off-Shore Wind Farm establishment. Impacts on biological resources and fisheries in the Adriatic Sea environmental context**

Otello Giovanardi

Veneto Agricoltura Consultant

11.50 **A positive experience from Great Britain and Northern Europe: Best Practices in off-shore wind parks environmental impact analysis**

Adrian Judd

Centre for Environment, Fisheries and Aquaculture Science (CEFAS)

12.50 **Wind Power in Italy and environmental debate, from NIMBY to BANANA syndrome?**

Edoardo Zanchini

Legambiente Italia

13.20 **Conclusions**

Antonio Sorgi

Director for Energy Department – Abruzzo Region Project Powered Lead Partner
